

Wyoming Instructional Model Lesson Plan - Synergy

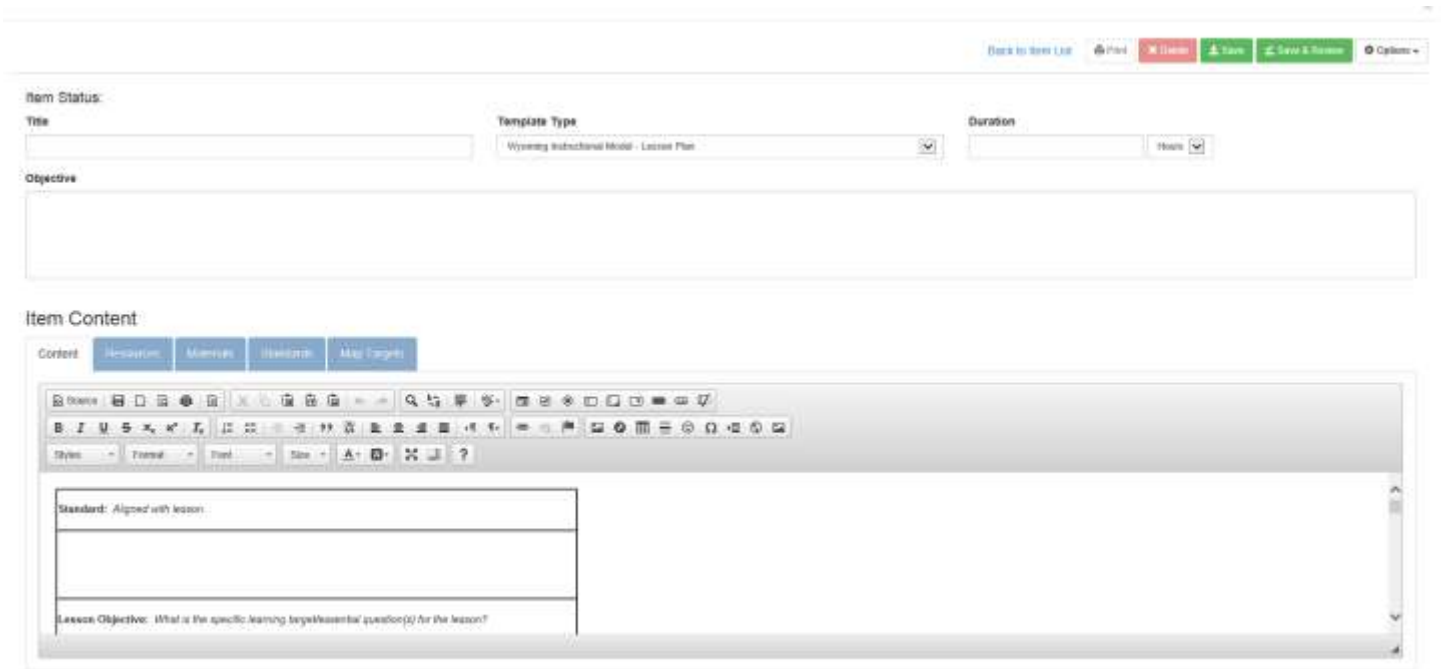

To add a Wyoming Instructional Model Lesson Plan - click on Curriculum Elements under LessonVue, click on New

Fill in the Title, choose the Template Type (Wyoming Instructional Model Lesson Plan), fill in Duration, and Objective. Once you choose the Template it will add the template in the body and can fill that out.

You can add resources (web links or documents), materials, standards (if they are in the system), and if you have a map in LessonVue you can have it automatically load to your map).

Save

After you have created the Curriculum Element and you don't have a Map yet you can search for it by typing in part of what you called it, click search. A list will come up of any items that have that word or words that you typed in the search and you click on the item you want.
